Masa Marble

Designed on the basis of five of the world's most exclusive types of marble, Masa Marble seeks out distinctive cuts and vein patterns as the inspiration for unusual, extraordinarily realistic designs and sizes. Natural effects and creativity combine: the vein patterns and depth of marble are enhanced by the tasteful contrast with the monochrome effect of the resin. The collection is conceived to provide the utmost architectural freedom with its combination of three complementary materials, with solutions in marble alone, in marble plus resin, as in the Ambra decor, or in just resin.
