Glam Wood

The special effect, which almost seems to animate the surface, is achieved by irregular lines that run parallel, creating visual and light effects, emphasized by the glossy finish. The palette comes from the nautical world: Rubino is the most unusual and distinctive shade, characterized by a dominant red that defines refined surfaces; Noce is a light brown, luminous and versatile; Moro is a dark shade, intriguing and enveloping. Decorations complete the collection: the geometric Club embellished with the metal insert and then Onda mosaic with its elegant vintage style..
