

Micro. è un progetto. Un progetto aperto e in continuo sviluppo che ricerca l'essenza, il minimo comun denominatore.

Cerchiamo l'ergonomia, la sintesi, quella piccola cosa che può cambiare davvero la nostra vita in meglio. Hai presente? Un materiale più leggero e resistente, un rivestimento modellabile, non mettendo mai da parte la bellezza, la comodità e l'uso che ne farai.

Collaboriamo con i migliori designer al mondo per portare avanti questo progetto perché ci piace sognare un futuro prossimo dove tutto quello che abbiamo intorno sia così.

Micro. is an open project, a work in progress.
We search the essence, the lowest common denominator.

We search ergonomics, synthesis, that little thing can really change our lives for a better living. Do you know what we mean? A more lightweight and resistant material, a moldable coat for example. Beauty, comfort and the use you're going to make of our products is our primary target. We work with the best designers in the world to carry out this project. We dream a future where all you have around is better than ever.
