

PIASE

Un progetto di grande rilievo.

ispirato dall'eleganza e dalla straordinaria versatilità della Piasentina.

Estratta dalle cave di una ristretta fascia delle Prealpi Giulie, la Piasentina deve il suo nome agli abitanti di Udine, che nella lingua locale la definivano come una pietra che "la piase", cioè che piace.

A major project, inspired by the elegance and amazing versatility of Piasentina stone.

Obtained from quarries in a small area of the Julian Pre-Alps, Piasentina stone derives its name from the people of Udine, who used to describe it in the local dialect as the stone which "la piase", or "pleases".

Piase is a collection that contains variety, since it expresses the processes by which this extraordinary stone is transformed, from the time of quarrying until its final acquisition of new forms and meanings. **Therefore, a different version of the stone is included to reflect each step in the process.**

The series, achieved through complex, meticulous research, is completed by the Bricks, also expressing the various steps in the processing of Piasentina stone, **to create an infinite series of combinations of shade variations and piece sizes, and elegant, sophisticated compositions ideal for both floors and walls.**

The 12.5x25 and 6x25 Bricks are available in a selection of finishes: Spazzolata, Piano Segà, Fiammata, Spacco Multicolor and Burattato.

Piase è un progetto articolato che vuole esaltare i processi di trasformazione di questa straordinaria pietra: dal momento dell'estrazione fino a quando essa assume nuova forma e significato.

Pertanto ad ogni lavorazione corrisponde una versione differente della pietra.

La serie, frutto di una ricerca complessa e meticolosa, è completata dai Brick ricavati anch'essi dalle diverse lavorazioni della Piasentina, per creare una **serie infinita di accostamenti di sfumature**, abbinamenti e composizioni eleganti e ricercati ideali sia per pavimenti che per rivestimenti.

I Brick 12,5x25 e 6x25 sono proposti in differenti finiture: Spazzolata, Piano Segà, Fiammata, Spacco Multicolor e Burattato.

*“Una pietra
che la piase”*

Lappata

Lavorazione realizzata con mole abrasive che levigano la superficie per renderla lucida e riflettente. La lappatura ottenuta mette in risalto tutte le cromie presenti sulla superficie e ne esalta il movimento grafico.

A process carried out using abrasive wheels, which sand the surface, leaving it glossy with a reflective shine. The polished finish produced highlights all the surface's colours and emphasises its patterning.

Spazzolata

Trattamento di lavorazione per rendere la superficie più morbida e setosa. Un effetto che cattura per variazioni cromatiche, venature bianche di calcite cristallizzata e mazzature di tonalità bruno-rossastro che conferiscono alla superficie una fantastica dinamicità. Disponibile per interni, per esterni nella versione R11 e anche in versione 20 mm.

A process which leaves the surface softer and silkier. An effect that captures colour variations, white veins of crystallised calcite and reddish-brown mottling that give the surface a fantastic vibrancy. Available for indoor use, for outdoors in the R11 version, and also in a 20 mm version.

Fiammata

Finitura ottenuta da sbalzi termici provocanti un distacco di minutissime scaglie. L'effetto produce mazzature bruno rossastre, venature bianche di grande vitalità e una leggera bocciardatura, morbida al tatto, con una leggera marcatura dei tipici colori della pietra. Disponibile per interni, per esterni nella versione R11 e anche in versione 20 mm.

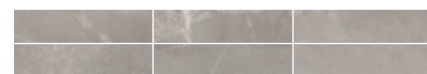

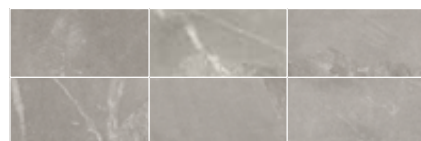

A finish produced by rapid heating, which causes tiny flakes to detach from the surface. The effect produces reddish brown mottling, very lively white veins and a slightly bush-hammered surface, soft to the touch, lightly marked in the stone's distinctive colours. Available for indoor use, for outdoors in the R11 version, and also in a 20 mm version.

Piano Sega

Finitura sulla quale la faccia a vista presenta in forma evidente i segni tipici dalle macchine utilizzate per il taglio. Disponibile in 4 varianti di colore: argento, grigio, sabbia e antracite, a replicare le differenti cromie della Piase in funzione della zona da cui viene estratta.

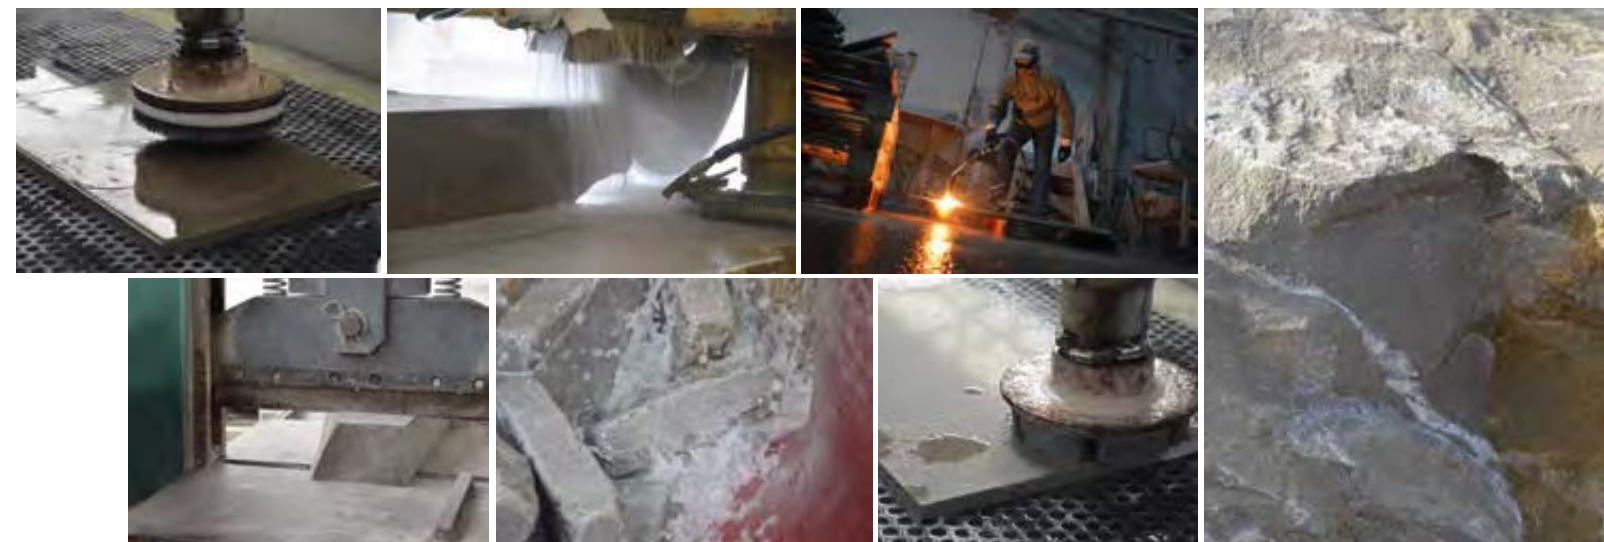

A finish with the distinctive marks left by cutting equipment clearly visible on the top surface. Available in 4 colour variants – Argento, Grigio, Sabbia and Antracite – which reproduce the different shades in which Piasentina stone occurs depending on where it is quarried.

progetto **PIASE**

Ricchezza di sfumature e infinite combinazioni.

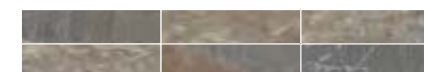

Rich in shade variations and infinite combinations.

Brick Spacco Multicolor

Finitura risultante dall'operazione di spaccatura di pietre dalle caratteristiche e colorazioni molto differenti, che produce effetti cromatici, casuali, inaspettati, variegati e tridimensionali.

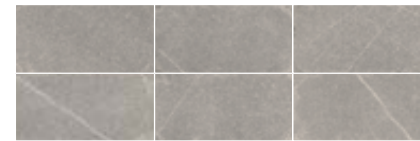

The finish is obtained by splitting stones with very different characteristics and colouring, to produce random, unexpected, variegated, three-dimensional colour effects.

Brick Burattato

L'effetto è dato dal rotolamento e urto delle pietre insieme a sabbia abrasiva e a liquido lubrificante, per creare superfici dai bordi arrotondati.

The effect is achieved by tumbling stones with abrasive sand and a lubricating liquid so that they rub and knock against each other, forming surfaces with rounded edges.

*“Ho costruito la mia casa
con le mie mani
e le pietre della terra che amo”
Alvino*

20MM

**45x90
60x60**

Piase 20mm offre la possibilità di realizzare spazi esterni di grande valore estetico, senza rinunciare alle prestazioni tecniche.

Le caratteristiche specifiche di **Piase 20mm** permettono di integrare perfettamente il materiale con l'ambiente circostante, offrendo la possibilità di creare in modo semplice ed efficace camminamenti e percorsi outdoor.

L'alto spessore di **Piase 20mm** garantisce un'elevata resistenza rendendolo ideale negli ambienti interni ed esterni pubblici.

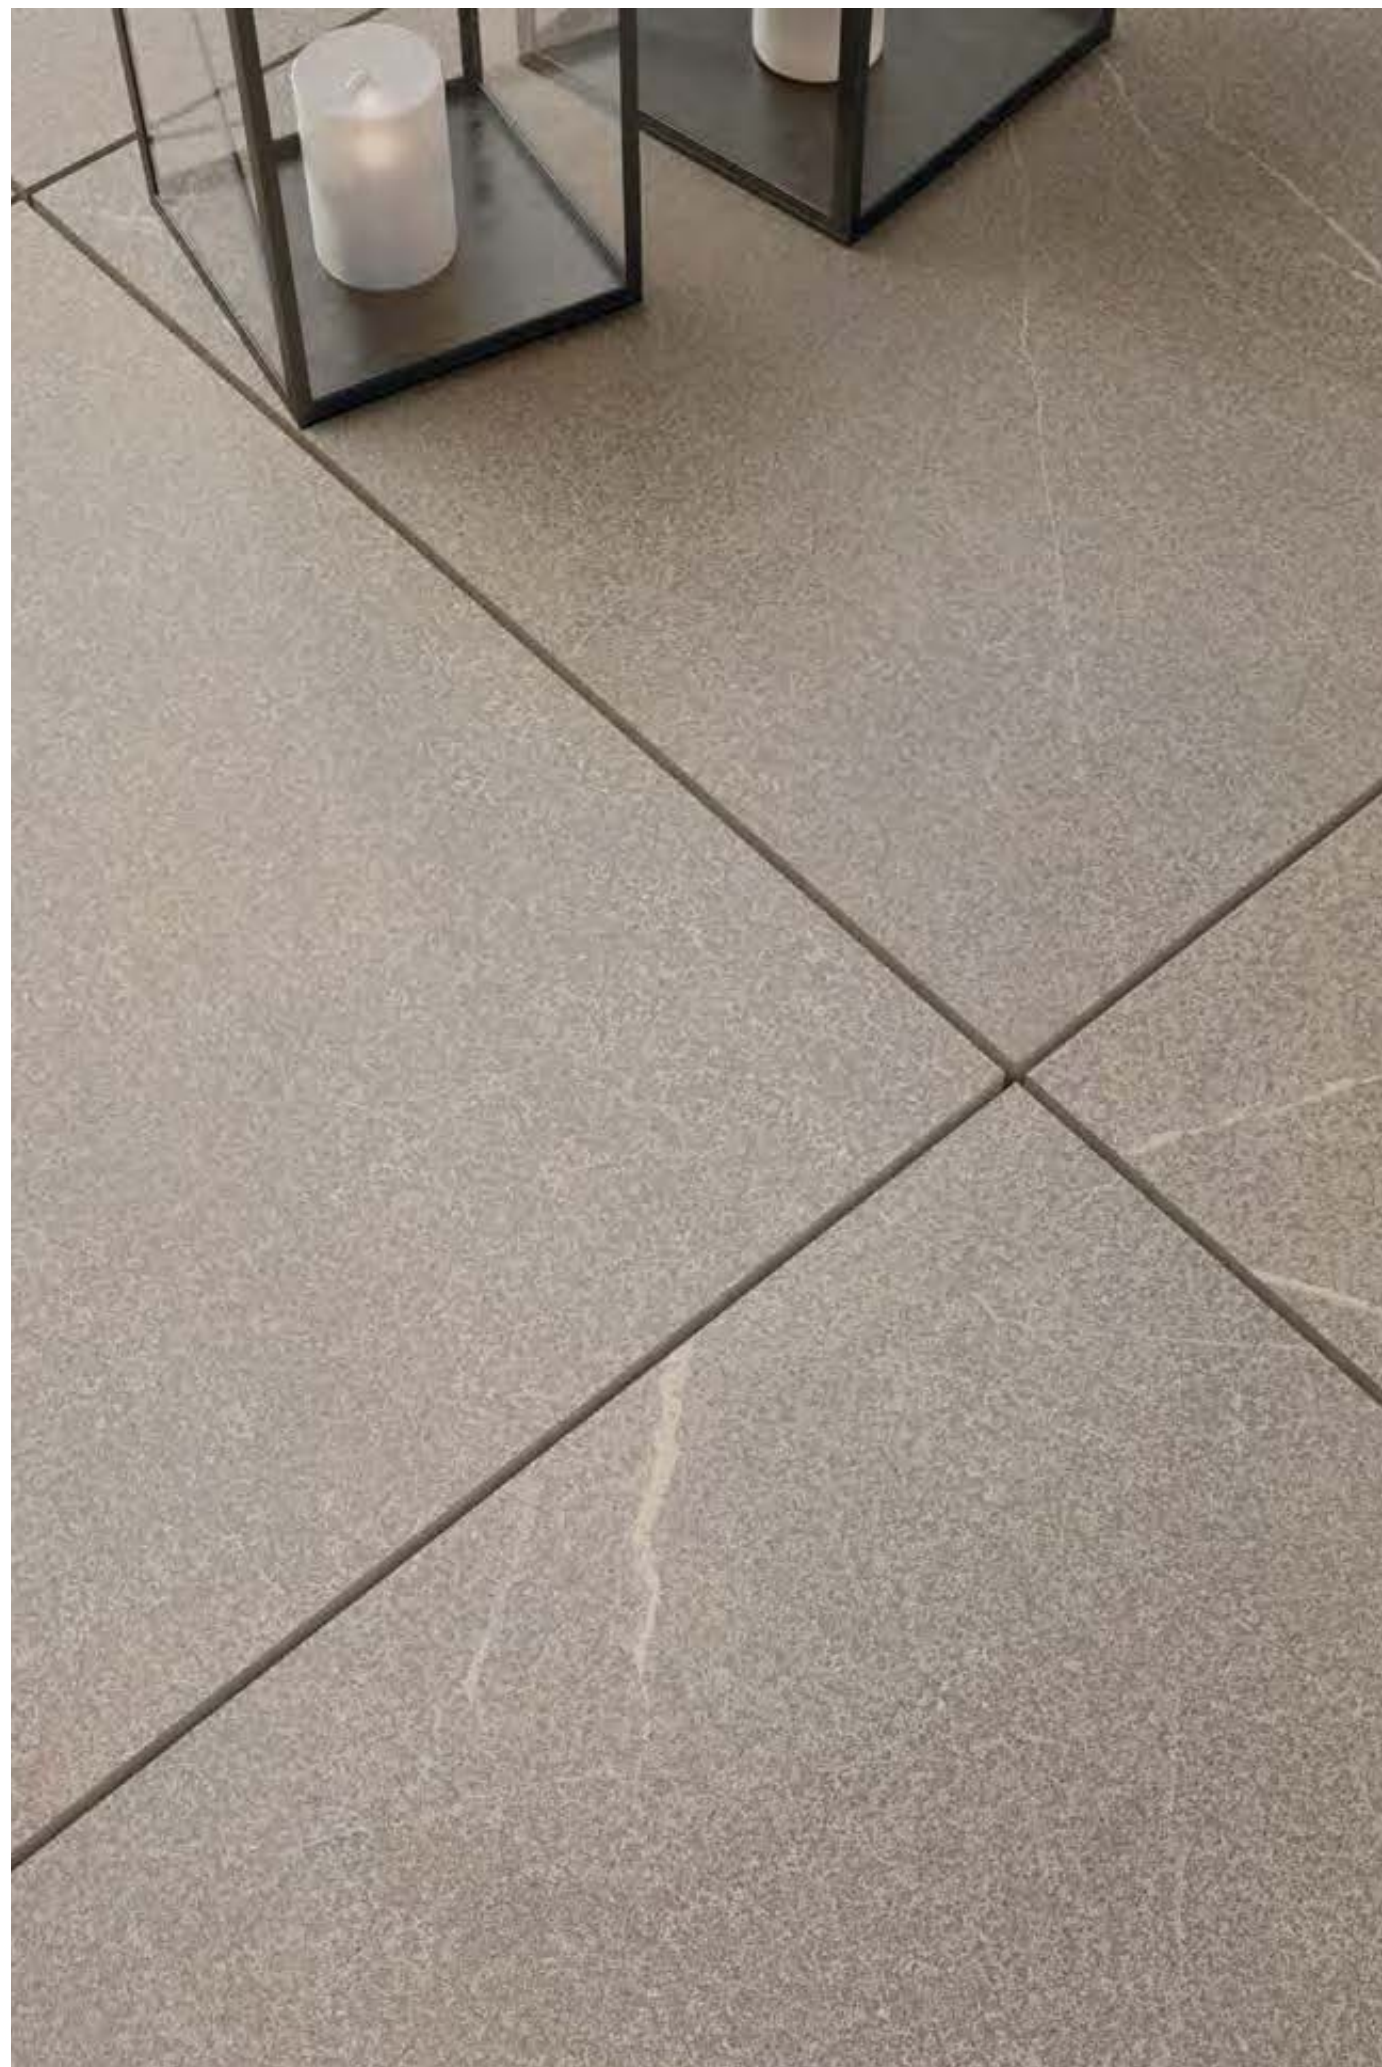

Piase 20mm è facile da posare su erba, su sabbia, su ghiaia. La posa a colla su massetto permette di realizzare pavimentazioni carrabili industriali e commerciali. Ideale per rampe di accesso e garage.

Piase 20mm è l'ideale per la creazione di pavimenti sopraelevati.

06MH8 Brick Piano Segna Grigio Nat. 6x25 - 2^{3/8}"x9^{13/16}"

20MM

**45x90
60x60**

Piase 20mm offers the chance to develop extremely aesthetically pleasing external spaces without compromising on technical expertise.

The specific qualities of **Piase 20mm** allow you to perfectly integrate the material in the surrounding environment, making it possible to create walkways and outdoor paths easily and effectively.

The thickness of **Piase 20mm** guarantees excellent resistance, making it ideal for use in both indoor and outdoor public spaces.

Piase 20mm is easy to lay on grass, sand and gravel. By gluing it down to screed it is possible to create industrial and commercial paved driveways. Ideal for access ramps and garages.

Piase 20mm is ideal for the creation of cavity floors.
